5. Transporter

ProNorth Transportation
EPA I.D. No. CAR000152355

6. Waste Shipments

Total Waste Shipments: 28
Total Waste Amount: 1,755,209 lbs.

7. Efforts During Year to Reduce Volume and Toxicity of Waste Generated

In late 2001, Conbraco implemented a program (chemical Lead stabilization) to render approximately twenty percent of the subject facility's hazardous waste (otherwise exported) non-hazardous under RCRA. Conbraco continued that program in 2011. Conbraco is presently exploring additional opportunities to reduce the volume and toxicity of hazardous wastes generated at the subject facility.

8. Changes in Volume and Toxicity of Waste Achieved During Year in Comparison to Previous Years

The waste volume generated at the subject facility in 2011 increased because of an increase in sales, as compared to the volume generated in the previous calendar year. The waste toxicity was similar.
